Google Cloud

Anthos

All the Power of Anthos, Minus the Risks

Introducing Anthos Flat-Rate, a SADA-exclusive offer to deliver and support Google Anthos. Anthos, Google's innovative approach to hybrid infrastructure control across public, private, and alternative

clouds, enables businesses to accelerate application development with transformational technologies like service mesh, containers, and microservices.

Anthos Flat-Rate is a complete solution:

- Hardware, Software, Installation, Training: **Included**
- No hidden costs, predictable budget
- Skip the guesswork

With SADA's Anthos Flat-Rate offer, you'll have a partner that:

- Is co-invested to enable experimentation
- Has a close relationship with Google/Kubernetes Engineers
- Offers 24/7, US-based support with Anthos

Anthos: One Management Solution for a Hybrid Cloud & Multi-Cloud World

Anthos marks a pivotal moment in cloud computing, enabling enterprises to transform their IT and build apps for the future. Anthos gives you the ability to:

- Run on-prem and remote
- Manage ops complexity
- Make cloud simple and consistent for devs
- Accelerate time to value
- Make multi-cloud the default

Anthos Flat-Rate Features

This package is essentially Phase 2 of a customer's Anthos implementation, refining a PoC environment into a production-ready infrastructure for a full year. It includes:

Hardware

Choose from portable high-density clusters for remote locations or rack-mount for your DC or Colo; all custom specified and configured for Anthos.

Software

Includes required Anthos, VMware, and F5 licensing, or reuse existing license if you have a direct relationship.

Installation

On-site Anthos techs will stand up infrastructure, networking, storage, and the required GCP IAM and project configurations.

Training & Support

Hands-on lab with leave-behind video and project-based training materials ensure you're deploying containers to Anthos with confidence.

Partner With the Best

SADA's dedicated Anthos practice is made up of a team of professionals with deep expertise in the required hardware, software, and cloud components for a successful Anthos deployment. SADA is a global leader in providing business and technology consulting services that transform organizations by leveraging the entire Google Cloud portfolio. As a Google Cloud Premier Partner, SADA has proven expertise in enterprise consulting, cloud platform migration, custom application development, workplace transformation, cloud managed services, and change management.

*** Terms of Offer**

Access: We need your facilities, security, networking, and storage staff to allow these systems to interoperate with your current environment, otherwise we'll set it up in stand-alone mode.

Point of Contact/Decision-Maker: Our timeline anticipates timely responses for authorization and approvals. We expect same-business-day responses to maintain the committed timeline.

Out of Scope: We'd love to help you with containerization, app modernization, high-availability design, international deployments, hosting operations, and other services; these will be additional SOWs incremental to this offer.
