SADA

ANTHOS FLAT-RATE BY SADA

Anthos

All the power of Anthos, rolled out seamlessly

Anthos Flat-Rate is an exclusive solution that pairs Google's innovative approach to hybrid infrastructure control across public, private, and alternative clouds, with our delivery and support. Accelerate application development with transformational technologies such as service mesh, containers, and microservices.

Experience a complete solution with a partner who is invested in your success, has a close relationship with Google/Kubernetes engineers, and is co-invested to enable experimentation.

Anthos: One management solution for a hybrid and multi-cloud world

This is a pivotal moment in cloud computing because it empowers you to transform your IT and build apps for the future.

With Anthos, you can:

- Run on-prem and remote
- Manage ops complexity
- Make cloud simple and consistent for devs
- Accelerate time to value
- Make multi-cloud the default

Features

This package is Phase 2 of an Anthos implementation, refining a PoC environment into a production-ready infrastructure for a full year.

Hardware
Choose from portable high-density clusters for remote locations or rack-mount for your DC or Colo; all custom specified and configured for Anthos.

Software
Includes required Anthos, VMware, and F5 licensing, or reuse an existing license if you have a direct relationship.

Installation
On-site Anthos techs will stand up infrastructure, networking, storage, and the required GCP IAM and project configurations.

Training & support
Hands-on lab with leave-behind video and project-based training materials ensure you're deploying containers to Anthos with confidence. Plus, you'll always have expertise at your fingertips with US-based 24/7 support.

SADA

Your success is our success

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward. It's not enough to migrate to the cloud, it's about what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, financial services, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

Package sizes:

Small
- 2 x devices
- 1 x location
- 96vCPU
- Internet/VPN networking

Medium
- 6 x devices
- <2 x locations
- 288vCPU
- Dedicated Interconnect

Large
- 15 x devices
- <3 x locations
- 1,392vCPU
- Dual-tunnel HA D

Details of package

Access: We can either design for your facilities, security, networking, and storage to interoperate with your current environment; or we can set it up in stand-alone mode.

Point of contact: Our timeline anticipates timely responses for authorization and approvals. We expect same-business-day responses to maintain the committed timeline.

Timing: An Anthos license is a 3-month trial, approved by Google.

Project scope: We'd love to help you with containerization, app modernization, high-availability design, international deployments, hosting operations, and other services; these would be additional SOWs.

"SADA helped us gain a deeper understanding of the advantages of Google Cloud Platform so we could make better decisions about how our application would perform and scale. They provided the facilitation, follow-up, and expert advice we needed to make our deployment a success."
