

VM MIGRATION FLAT-RATE BY SADA

Access the power of cloud no matter your budget

Introducing VM Migration Flat-Rate, a packaged offer to accelerate your migration journey. Move your VMs from AWS and VMware to Google Cloud with SADA to reduce risks, improve agility, cut costs and save time. Our offer means you'll have an experienced partner with a track record of success, a close working relationship with Google/Velostrata engineers, and 24/7 US-based support.

Make your migration real

When you work with SADA, there's no need for downtime, reworked data schemas or application refactoring.

Pricing for your budget

Migrate your databases to the world's largest private and ultra-fast network with pricing that meets your needs.

Security that makes the difference

Operate your business with confidence knowing your data is protected by a strictly controlled, secure cloud that's trusted by over one billion users worldwide.

Reliability throughout

Streamline your migration. As a Google Cloud Premier Partner, SADA can walk you through the assessment, planning, migration and optimization of your databases to Google Cloud Platform.

A work plan could look like:

Week 1: role alignment, system discovery (network, storage, software, security), and requirements ratified.

Week 2: GCP and connectivity configuration, dependency mapping, wave definition.

Week 3-n: 50 VMs migrated/week.

Week n+1: knowledge transfer and project close.

A pre-set, all-in budget includes:

Configuration

Setup of Velostrata appliances at existing AWS or VMware hosts, and setup of your Google Cloud, IAM, VPC, and GCE environment.

Networking

Secure connectivity between target and destination environment.

Deployment

Hands-on management of the migration and deployment of your VMs.

Training

GCP 101 and GCE training included.

Your success is our success

At SADA, we climb every mountain, clear every hurdle, and turn the improbable into possible – over and over again. Simply put, we propel your organization forward.

It's not enough to migrate to the cloud, it's about what you do once you're there. Accelerating application development. Advancing productivity and collaboration. Using your data as a competitive edge. When it comes to Google Cloud, we're not an add-on, we're a must-have, driving the business performance of our clients with its power.

Beyond our expertise and experience, what sets us apart is our people. It's the spirit that carried us from scrappy origins as one of the Google Cloud launch partners to an award-winning global partner year after year. With a client list that spans healthcare, financial services, media and entertainment, retail, manufacturing, public sector and digital natives – we simply get the job done, every step of the way.

Your challenges are ours. We're ready. Let's go.

Package sizes:

- Small**
50 VMs and up to 10TB storage
- Medium**
100 VMs and up to 20TB storage
- Large**
250 VMs and up to 50TB storage
- Extra Large**
500 VMs and up to 100TB storage

Details of package

- Access:** Your facilities, security, networking, connectivity and storage are imperative for interoperability.
- Environment review:** We'll do an initial environment scan and map your app dependence to understand your full landscape.
- Timing:** Because our timeline is dependent on authorization and approvals from your team, we'll develop an expected cadence together.

Project scope: Our flat-rate package can be extended with additional project scopes of work for containerization, app modernization, high-availability design, international deployments, hosting operations and others.

“SADA helped us gain a deeper understanding of the advantages of Google Cloud Platform so we could make better decisions about how our application would perform and scale. They provided the facilitation, follow-up, and expert advice we needed to make our deployment a success.”

Saeid Vafaeisefat
Senior Director of IT | TVG Network
